Shreveport

9310 Normandie Drive
Shreveport, LA 71118

International Registration Plan

The International Registration Plan (IRP) is an optional program for licensing commercial vehicles traveling in two or more IRP jurisdictions.

All member IRP jurisdictions are required to comply with the following three basic concepts of the Plan:

1. Issuance of a single “apportioned” plate.
2. Issuance of a single registration cab card.
3. Allow intrastate and interstate movement.

Under the IRP plan, an interstate carrier files an application with the jurisdiction where they are based and have an established place of business (see glossary for definition of established place of business). That jurisdiction is known as the “base jurisdiction”.

Base Jurisdiction

“Base jurisdiction” means the state or province, (i) where the Applicant has an Established Place of Business, (ii) where the Applicant seeks to register under the Plan accrues distance and (iii) where Operational Records of the fleet are maintained or can be made available, to which an Applicant applies for apportioned registration under the Plan or the Member Jurisdiction that issues apportioned registration to a Registrant under the plan.

Credentials are issued by the base jurisdiction and the cab card lists all the IRP jurisdictions and corresponding weights that the carrier has requested and paid for. One license plate will be issued.

IRP registration does not:

- Exempt a carrier from the payment of motor fuel taxes.
- Exempt a carrier from obtaining operating authority.
- Exempt a carrier from payment of the Federal Heavy Vehicle Use Tax (form 2290).
- Permit a carrier to exceed maximum height, length, width, and axle limitations.
- Permit a carrier to exceed “bridge laws.”

Apportionable Vehicles

An apportionable vehicle, by definition, is a vehicle that a registrant intends to operate in two or more IRP jurisdictions for the transportation of property (or persons) for profit, and:

- Is a power unit with a gross weight in excess of 26,000 pounds; or
- Is a power unit with three or more axles regardless of weight; or
- Is a power unit used in combination with another unit, and together exceeds 26,000 pounds.

If a vehicle does not meet the definition of apportionable vehicle, regarding the operation in two or more IRP jurisdictions, a renewal registration may be denied. This means if the vehicle was not operated in any jurisdiction other than the base jurisdiction during the previous 18 months it is no longer eligible to register IRP at the next renewal.

A carrier with a power unit that travels interstate but does not meet the above weight or axle requirements may obtain an IRP registration at their option.

Buses

Apportionment is a requirement under IRP for all buses traveling regularly scheduled routes or used exclusively for the transportation of “chartered parties”.

At the option of the registrant, total distance may be the sum of actual in-jurisdiction distance or a sum equal to the scheduled route distance per jurisdiction from the farthest point of origination to the point of destination of the route scheduled.

IRP Exempt Vehicles

Government-owned vehicles

City pick-up and delivery vehicles (within Louisiana)

Recreational vehicles

Vehicles displaying a restricted plate

Restricted Plate

“Restricted Plate” means a plate that has a time, geographic area, distance, or commodity restriction or a mass transit or other special plate issued for a bus leased or owned by a municipal government, a state or provincial transportation authority, or a private party, and operated as part of an urban mass transit system, as defined by the jurisdiction that issues the plate.

Vehicles displaying the following restricted plates by Louisiana are exempt if applicable agreements, understandings, or declarations so provide. These vehicles exempt from apportioned registration can operate Intrastate only. If operating Intrastate within other IRP jurisdictions, a trip permit must be obtained prior to entry OR vehicles may be apportioned at the option of the registrant.

- Public
- Forest Products
- Farm-use
- Gravel Haul
- Dealer Inventory
- Transport

Registrant Distance Records

Operational records must be kept for all vehicles registered in the IRP and must be accurate, legible, and maintained to support mileage figures submitted for the current and the three previous registration years.

These records must document all miles traveled in each jurisdiction by each vehicle. An Individual Vehicle Distance Record (IVDR) is an acceptable supporting document to verify fleet mileage. An IVDR shall contain:

- Starting and ending dates of each trip
- Where the trip started and ended
- The route of travel
- Total of all trip miles (including all miles loaded, empty, and/or deadhead)
- Miles traveled in each jurisdiction
- The unit number or vehicle identification number
- Vehicle fleet number

- Registrant's name
- Driver's signature

Monthly reports such as fuel reports are not acceptable at face value. These must be supported by an IVDR. The carrier must also be able to explain any unaccounted time lapse of vehicle movement. All miles operated under trip permits should be included in the mileage record and should be attached to the IVDR.

Failure to keep accurate records may result in full fees being charged by each jurisdiction to which the carrier was apportioned.

Audits

The purpose of audits is to verify the accuracy of the mileage apportioned to each jurisdiction.

Operational records must be made available at the registered place of business or be delivered to the Louisiana Department of Safety, Internal Audit Division as directed.

Results of an audit will be sent to the carrier and all the IRP jurisdictions to which the carrier is registered. The carrier will be billed for any IRP mileage differences discovered because of the audit. Invoicing will be made at the discretion of the individual jurisdictions. It is the responsibility of each jurisdiction to refund any overpayment of fees directly to the carrier.

No charges or credit claims may be made for periods in which operational records are no longer required to be kept.

Copies of invoices and applications must be retained for the current and three previous registration years.

Records are to be maintained by unit, jurisdiction and by fleet, along with quarterly and annual summaries. The quarterly and annual summaries are to be arranged by fleet and by jurisdiction totals.

If driver's logs are used as source documents, they must be retained for the same period as all other records.

Staggered Registration

New IRP accounts created under Staggered Registration will be twelve months from the date the account is opened. Ex: IRP Account opened in August 2018 will expire in July 2019. **Note:** For July – May expiration date will be reused. June is not an expiration month in IRP staggered registration for Louisiana.

Month	Month IRP account will expire on the last day
January	December
February	January
March	February
April	March
May	April
June	May
July	May – (June will not be used in staggered registration)
August	July
September	August
October	September
November	December
December	January

Enforcement

Apportioned license plates should be mounted on the rear of straight trucks, trailers, and buses and on the front of all tractors.

IRP qualified vehicles must display a current apportioned license plate or valid trip permit or valid temporary authority before traveling into other IRP jurisdictions.

The original cab card or a legible photocopy must be always carried in the vehicle.

Renewal credentials must be displayed by the 1st day of the month following your expiration month.

Renewal credentials may be displayed before the 1st day of the month if the previous year's registration cab card is also carried in the vehicle.

Refunds

Refunds will be made only when the amount is \$6.00 or more and falls into the following category:

- An error was made on the invoice.
- An error results in the duplication of an apportioned registration for a vehicle.
- A conversion from a regular Louisiana plate (turned into OMV/IRP at that time) to a Louisiana apportioned plate.
- A vehicle is sold prior to issuance of the apportioned license plate, which is then returned to OMV/IRP with the unused cab card and a copy of the notarized bill of sale for the vehicle.
- An audit of the apportioned carrier indicates an overpayment of fees.

Refunds are not available for any plate that has been mounted on a vehicle.

The carrier is responsible for handling directly the request for refund to each individual apportioned IRP jurisdiction. However, refunds on fees paid to jurisdictions other than Louisiana are made at the discretion of each jurisdiction.

Generally, the jurisdictions that owe the carrier a refund, above their minimum amount, will either issue the refund or send a refund form directly to the carrier.

Requirements

Louisiana statutes require that any vehicle being licensed in Louisiana must be titled in Louisiana. You must file an application (DPSMV 1799) to title a motor vehicle prior to applying for an apportioned license plate. More information on the titling of motor vehicles is available on the State website at www.expresslane.org under FAQ's (frequently asked questions) select Title and Registration.

Insurance

To obtain Louisiana apportioned plates an applicant must have proof of liability insurance in the amount of \$100,000/\$300,000/\$25,000 or combined single limit of \$300,000 if the vehicle has a GVW rating in the excess of 50,000 lbs. Vehicles with a combined rating of 20,001 through 50,000 lbs. must submit proof of liability insurance in the amount of \$25,000/\$50,000/\$25,000 or a combined single limit of not less than \$75,000.

Please Note: If a carrier is leasing equipment to another company/individual and the lessee is providing insurance on the unit, it will be necessary to submit a copy of the lease agreement.

Unified Carrier Registration

Louisiana is a member of the Unified Carrier Registration Agreement. All fees for the current year in UCR must be paid. Any carrier who is delinquent in payment of UCR fees must pay the current fees before vehicle(s) can be added to the existing account or before a new account can be opened.

To operate Interstate for-hire transportation in Louisiana all common and contract for-hire carriers of passengers, household goods, or waste must register with the United Carrier Registration in order to be compliant with State and Federal laws.

The Unified Carrier Registration (UCR) program requires individuals and companies that operate commercial motor vehicles in Intrastate commerce to register their business and to pay an annual fee based on the size of their fleet.

For purposes of determining fees, a “commercial motor vehicle” is defined as a self-propelled or towed vehicle used on highways in commerce principally to transport passengers or cargo.

If the vehicle has:

- A GVWR or GVW of 10,001 lbs. or more.
- Is designed to transport 11 or more passengers, including the driver; or
- Is used in transporting hazardous materials in a quantity requiring a placard.

Note: UCR fees are subject to change in future registration years. Check the UCR website: <https://www.ucr.gov> or with any Louisiana IRP Processing Center for the latest fees. Trailers have been eliminated as part of the vehicle count.

Established Place of Business

Established Place of Business means a physical structure located within the Base Jurisdiction that is owned or leased by the Applicant or Registrant and whose street address shall be specified by the Applicant or Registrant. This physical structure shall be open for business and shall be staffed during regular business hours by one or more persons employed by the Applicant or Registrant on a permanent basis (i.e., not an independent contractor) for the purpose of the general management of the Applicant's or Registrant's trucking-related business (i.e., not limited to credentialing, distance, and fuel reporting, and answering telephone inquiries).

The Applicant or Registrant need not have land line telephone service at the physical structure. Records concerning the Fleet shall be maintained at this physical structure (unless such records are to be made available in accordance with the provisions of Section 1035). The Base Jurisdiction may accept information it deems pertinent to verify that an Applicant or Registrant has an Established Place of Business within the Base Jurisdiction.

Base Jurisdiction Fleet Distance

Louisiana-based carriers must accrue distance within Louisiana.

Residency in Louisiana

Business

Your "Established Place of Business or Residency in Louisiana" is a physical structure owned, leased, or rented by the Applicant or Registrant. A post office box number is not an acceptable business address for IRP registration. The business address must be a valid street address. You will need to provide three (3) of the following documents to prove your established place of business or residency to obtain a new IRP account in Louisiana.

- The Registrant's Louisiana title
- Three (3) consecutive utility statements in the Registrant's name or copies of deposits made on utilities along with a copy of the work order to have utilities connected or installed.
- Louisiana Corporation documents
- Foreign Corporation documents in Louisiana

- A statement on letterhead from the Postmaster in the city where the business is located verifying the mailing address as belonging to the business.
- A copy of the Tax Registration Certificate issued by the Louisiana Department of Revenue indicating the Louisiana Tax Identification Number (document can only be provided by for-hire carriers who are registering under for-hire provisions of Louisiana R.S.47:306.1.)
- A copy of the company/corporate Louisiana Tax Return
- A copy of the company/corporate tax withholdings
- A statement on letterhead from a Louisiana bank verifying the business has an active business account with that banking institution. The statement must show the local and mailing address to which the business's bank statements are mailed.
- A copy of the Registrant's Occupational License and/or Occupancy License, if applicable
- A copy of the lease or rental agreement on property within the State of Louisiana indicating the lessee is the same business as reflected on the IRP application. The lessor of the property being leased cannot be an employee of the lessee.

Individual

- The Registrant's Current Louisiana Driver's License or CDL
- Three (3) utility statements (electric, gas, water, telephone, or cable vision) for consecutive months indicating the Registrant's name and address.
- Paid Personal Louisiana Income Tax document.
- Current Rental / Lease Property Agreement in the Registrant's name
- The Registrant's federal income tax returns have been filed from an address in that jurisdiction (W-2 forms for the last two years)
- A Louisiana voter's registration card
- A statement on letterhead from the Postmaster in the city where the Registrant resides verifying the mailing address.
- A statement from a Louisiana bank verifying the individual has an active account with that banking institution. The statement must show the local address of the individual and the mailing address to which the statements are mailed.
- Current health, home or personal vehicle insurance policy reflecting the Registrant's name and Louisiana address.
- Copies of any current school related documents reflecting applicant's children attend school in Louisiana.

The Louisiana IRP Application

The Louisiana IRP application is required for all first-time vehicle registrations and for all supplemental applications.

For renewing a registration, a computer-generated renewal application will be sent to the carrier for completion.

The Louisiana IRP application should be typed or clearly printed in ink. Please do not enter any information in the gray shaded areas. Following are instructions for completing an IRP application.

Carrier Information - Page 1

- Account number: (Carrier Number) Enter the 5-digit number assigned by the IRP processing center to the account. Enter "NEW" if the carrier does not yet have an IRP account number.
- Fleet number: Enter the 2-digit fleet number. (See glossary for definitions)
- Supplemental number: Leave blank.
- Name of registrant: Enter the name of the person, firm or corporation in which the vehicles are to be registered.
- DBA (if any): Enter the name that the registrant is Doing Business As (if applicable).
- Business Address: Enter the business street address. Address must be in Louisiana and cannot be a post office box.
- Mailing Address: Enter the mailing address for all correspondence and credential mailings. Post office boxes and out-of-state addresses are acceptable.
- Contact Person: Enter the name of the person to contact concerning the application.
- Louisiana Telephone Number: Enter the telephone number where the contact person can be reached. This may be a cellular number. If an out-of-state or 800 number is provided you must include the Louisiana business telephone number.
- Facsimile Number: Enter the business fax number.
- Email Address: Enter in personal or business email. (optional)
- Signature of owner: The application must be signed in ink.

- Position within the Company: If the person signing the application is not the vehicle owner or company owner, include their position within the company. If this information is not provided a power of attorney must be submitted with the application.
- FEIN: Enter the carrier's tax identification number. This can be found on the Heavy Vehicle Use Tax Form 2290 Schedule 1.
- Social Security: If the registrant does not have a Federal Tax ID number (FEIN), enter his/her social security number.
- USDOT#: Enter USDOT# if you have one established, if not you will need a USDOT# for registration purposes.
- Type of Transaction: Indicate the reason for submitting this application.
- Type of Operation: Check the appropriate box as described below.
- Private Carrier = hauls only the registrants' own products.
- Haul for Hire = is paid to haul freight and/or passengers.
- Rental Company = rents vehicles or fleets without drivers.
- Household Goods Mover = hauls only personal household items.
- Exempt = hauls only commodities that are exempt from regulation by the Louisiana Department of Transportation and Development. (Type - Livestock, Grain, Ore, Logs, Sand, Rock, or Gravel.)
- Check box if carrier has intrastate authority in Wyoming.

Vehicle Information – Page 2

- CO Indicator: If the fleet apportions to Colorado circle "N" if the vehicle travels 10,000 miles or less nationally in a year. If the vehicle travels over 10,000 miles nationally, no notation is required.
- Unit Number: Enter the number used to identify the vehicle. Note: If a vehicle is deleted during the registration year the new vehicle cannot have the same unit number as the vehicle that was deleted.
- Vehicle Identification Number: Enter the complete serial number as it appears on the title.
- Year: Enter the last two digits of the model year of the vehicle.
- Make of Vehicle: Enter the make of the vehicle as it appears on the title.
- Vehicle Type: Enter the abbreviation for the type of vehicle being registered from the list below.

- TR: Tractor
- TK: Straight truck
- TT: Truck tractor
- WR: Wrecker
- BS: Bus
- Axles/Buses: Enter the number of axles on the power unit alone.
- Comb Axles: Enter the total number of axles including the power unit axles and trailer axles.
- Buses: Enter the total number of seats.
- Fuel: Enter the abbreviation for the type of fuel used by the vehicle from the list below. (Leave blank for trailers.)
- A – Alternative
- CNG – Compressed Natural Gas
- D: Diesel
- E - Electric
- H – Hydro
- LNG – Liquefied Natural Gas
- P: Propane
- A: Alternative
- Unladen Weight: Enter the empty weight of the truck, tractor, trailer or bus.
- Combined or Gross Vehicle Weight: Enter the declared maximum combined or gross weight of the vehicle fully loaded. Note: For buses determine the GVW by multiplying the maximum number of passengers by 150 pounds plus the unladen weight of the bus.
- Purchase Price: Enter the purchase price of the vehicle (round to the nearest dollar). Do not include sales tax. If the vehicle is a gift or the purchase price is unknown, use the fair market value. Do not enter \$0 or gift.
- Factory Price: Enter the manufacturer's list price when vehicle was new. If this amount is unavailable use the purchase price.
- Date of Purchase: Enter the month, day, and year the vehicle was purchase.
- Date of Lease: If the vehicle is being leased from someone other than the registrant, enter the month, day, and year the lease began. Owner-operators do not show the date leased to a motor carrier.
- Name of Owner: Enter the owner's name as it appears on the title.
- Bus: HP (horsepower): Enter the rated capacity of the engine. (optional)

- Company US DOT Number: Enter the US DOT number of the motor carrier responsible for the safety of the vehicle.
- Company FEIN (Federal Identification number): Enter the FEIN of the motor carrier responsible for the safety of the vehicle.
- Safety N/Y: Enter “N” if the responsibility for the safety of this vehicle will remain the same during the entire registration year. Enter “Y” if the responsibility for the safety of this vehicle may change during the registration year.
- Plate Number: If you are converting a Louisiana base plate enter the base plate number.

Replacement Credentials: See Supplement Section.

Distance and Weight Schedule – Page 3

Please follow the instructions closely when completing this section. It is important from an audit standpoint that the distance be recorded accurately.

Average-Per-Vehicle Distance

When the Application is for a Fleet that did not accrue any actual distance during the Reporting Period, the Base Jurisdiction, shall assess registration fees for the Fleet based on the Average per Vehicle distance in each Member Jurisdiction.

Enter the combined gross weight (CGVW) next to each state to be apportioned. Weights for non-IRP jurisdictions will not appear on invoices or cab cards. The maximum allowable gross weights for all jurisdictions are shown on IRP Manual pages 21-23.

Note: The weight entered for Louisiana must match the weight listed on page 2 of the vehicle information.

A fleet may have more than one weight category (group). Submit a separate IRP application for each group of vehicles operating in the same states but at different weights.

Report the actual distance traveled in any jurisdiction during the reporting period.

The reporting period is the period of twelve (12) consecutive months immediately prior to July 1 of the calendar year immediately preceding the beginning of the registration year for which registration is sought.

If the registration year begins in July, August, or September the reporting period shall be the previous such twelve (12) month period.

Enter the actual distance in the appropriate column. Actual distance includes all distance driven in both IRP and non-IRP jurisdictions and includes deadhead, bobtail, and maintenance and trip permit distance.

*NOTE: if the vehicle was operated by you at any time in the past 18 months you must provide the actual distance accrued in any jurisdiction.

The Office of Motor Vehicles has the right to question all estimated distance reported before January 1, 2015. If the Commissioner determines the information submitted on the Carrier Statement of Proposed Estimated Distance unsatisfactory, the estimates will be adjusted to the Louisiana Estimated Distance Chart.

Invoices will reflect a premium (above 100% registration fees) if the application contains any jurisdiction in which estimated distance has been submitted in any previous registration year.

Total Distance: Record the total of actual distance or total of Average Per-Vehicle Distance Chart.

Note: It is the carrier's responsibility to verify all information on the credentials once they are received. Any errors or omissions should immediately be brought to the attention of the IRP Office. The carrier will be billed for the correction if it is determined that the original application contained incorrect information.

Temporary Registration Authority (TRA)

A carrier must have an IRP account in good standing for the current license year to obtain a Temporary Registration Authority (TRA).

The TRA is a 60-day permit issued by the IRP Processing Center for the purpose of having immediate authorization to modify a current account. A TRA can be secured for most supplemental transactions.

A TRA covers a specific vehicle and cannot be transferred from one vehicle to another.

Note: No TRA's are issued for the creation of a new fleet.

To obtain a TRA

- Complete and sign a Temporary Registration Authority Application.
- Deliver the application in person to one of the IRP Processing Centers.

After the TRA is issued

- The IRP application must be submitted with all supporting documents with the TRA application.
- The transaction will be invoiced only when all documents are received.
- No extension or second TRA is available for an expired TRA.

Failure to comply with these guidelines will result in suspension of the account and may forfeit the carrier's right to obtain TRA's in the future.

Trip Permits

Trip permits are short term registration (usually for 3 to 5 days) for IRP qualified vehicles that do not have registration privileges in a particular jurisdiction.

If a vehicle qualifies for IRP registration but is not registered with the IRP for a particular jurisdiction, you must secure a trip permit prior to entering the jurisdiction. Louisiana trip permits are issued for forty-eight (48) hours at a cost of \$50.00.

Trip permits are available through wire services. LA IRP website (see below) has a current list of permit agencies. <https://www.la-trucks-online.org/trip-permits/>

Unladen Permit

An unladen permit is issued to an owner operator (vehicle owner) who has broken their lease with the motor carrier.

The permit allows travel from point of origin to point of destination and is good for thirty (30) days.

The permit shall be issued for the registered gross weight not in excess of the empty weight of the Vehicle or Combination of Vehicles being registered.

Supporting Documents

Supporting documents are required to complete most IRP transactions and must be submitted with the IRP application. Failure to submit the supporting documents will delay the processing of the application. The transaction type dictates the documents needed.

Titles

Required when:

- Registering a vehicle for the first time. (Vehicle must be titled in Louisiana)
- Registering a vehicle that has not been registered in Louisiana for one year or more.
- Changing a vehicle's year, make, VIN, or name of owner.

If any information on the title is incorrect, the title must be corrected before the vehicle can be licensed.

Federal Heavy Vehicle Use Tax (IRS Form 2290)

This form is required for any vehicle with a registered weight of 55,000 pounds or higher. This tax is paid directly to the IRS each year.

Note: Do not send the original Form 2290! Originals will not be returned.

Proof of payment or exemption must be one of the following:

A copy of the Form 2290 Schedule 1 stamped or watermarked paid by the IRS.

A copy of the Form 2290 Schedule 1 and both sides of the canceled check showing validation by the IRS.

The VIN(s) listed on the form must match that of the vehicle(s) being licensed.

The name on the form must match the registrant's name unless the vehicle is leased.

IRS Toll Free Number for Assistance:

800-829-1040

To apply for FEIN (Federal Identification Number):

800-829-4933

Power of Attorney

Required the first time a vehicle is registered by someone other than owner.

FRP (Full Reciprocity Plan)

Under FRP, all new registrants are registered and pay fees to all jurisdictions and provinces based upon the Average Per-Vehicle Distance.

AVP Distance chart is created by the base jurisdiction.

The cab card will show all jurisdictions and provinces under the IRP plan.

A new registrant may provide actual distance for the current reporting period and pay those fees and still have all jurisdictions and provinces under the IRP plan on their cab card.

New first-year fleets and renewals will pay fees based on their actual distance in all member jurisdictions in the preceding year.

The cab card will still show all jurisdictions and provinces under the IRP plan.

Renewal Applications

Important Dates

Louisiana IRP plates expire at midnight on the last day of the expiration month. There is no grace period.

The preprinted renewal application is mailed 60 days of the month prior to the expiration date.

The completed renewal application and any required supporting documents should be submitted to an IRP office on or before the 1st working day of the expiration month.

General Instructions

If you added vehicles or made other changes after the renewal printout was generated, you will need to make the appropriate changes on the computer printed renewal application or submit a separate IRP application.

It is the carrier's responsibility to review, verify and correct all information on the computer printed renewal application.

If you have multiple fleets, submit only one mileage schedule per fleet.

The renewal application must be signed in ink. If someone other than the registrant signs the application, they must include a power of attorney.

There is one copy of the renewal application. Make a photocopy for your records.

The renewal application must be returned to an IRP Processing Center.

Note: The IRP office will delete any vehicle currently plated that does not appear on the renewal application or separate IRP application.

To Update USDOT Number

The USDOT Number MCS-150 can be updated online at www.safer.fmcsa.dot.gov.

If you return the MCS-150 update to the IRP Office for processing draw a single line through the information being changed or updated and enter the information under the old information.

If there are no changes you must still complete sections 22, 28, 29 and 30.

The MCS-150 form must be completed by an authorized official of the company to which the USDOT number is assigned.

Completing the Schedule A/C

To correct carrier information

Draw a line through the information to be changed and enter the correct information under or next to the old information.

To change the weights for all the vehicles in the weight group: Line through the weights shown in the weight group to be changed and enter the new weight next to the old weight.

If you are changing the gross weight in Louisiana, you need to change the vehicle information section to match the Louisiana weight.

Note: If the weight varies more than ten percent (10%) from one jurisdiction to another you must include an explanation for the weight difference.

To move a specific vehicle(s) to a different existing weight group: Record a "C" in the first column next to the unit number of the vehicle(s) being changed. Then next to the unit number write the new weight group number (example: WG 003). If necessary, change the gross weight in the vehicle section to match the Louisiana weight.

To move a specific vehicle(s) to a new weight group: Record a "C" in the first column next to the unit number of the vehicle(s) being changed.

Then next to the unit number write "move to new weight group". Complete pages 1, 2, and 3 (unit number, VIN and combined or gross weight only on page 2) of an IRP application and submit with the renewal printout.

To Change Vehicle Information

Record a "C" in the first column next to the unit number of the vehicle(s) being changed. Draw a single line through the information being changed and print the new information next to or under the previous information. Note: Original title(s) are needed to change the owner's name or to correct any vehicle information.

Enter "Y" or "N" regarding the safety responsibility question.

To Delete a Vehicle

Enter a "D" in the first column next to the unit number of the vehicle being deleted and draw a single line through the vehicle information.

To Add a New Vehicle

Record the vehicle information directly under an existing vehicle in the correct weight group or submit an IRP application (Pages 1, and 2).

All new vehicle additions must include any necessary supporting documents (refer to Supporting Documents Section).

For fleets that apportion to the state of Colorado:

If the vehicle travels 10,000 miles or less nationally (for the reporting period), enter "N" in the first column next to the unit number. If the vehicle travels over 10,000 miles nationally, no notation is required.

Completing Schedule B.

It is very important to follow these instructions and record the mileage information accurately.

List the total actual distance accrued for all vehicles that were in the fleet during the reporting period. (Refer to the top of the renewal jurisdictions page for the correct reporting period.)

Submit only one mileage schedule for each fleet. If two or more mileage schedules are received for the same fleet, the entire application will be returned without processing.

If you do not provide mileage for any state other than Louisiana, your renewal application will be returned, and you will be advised to purchase a Louisiana base plate at your local OMV office.

Supplemental Applications

A supplemental application is submitted by the carrier after the original application has been filed and paid. All supplemental applications are submitted on a Louisiana IRP Application.

Not all types of supplemental transactions can be processed together. To determine which transactions can be combined in a supplement, contact the IRP office.

Each supplemental transaction requires different information and supporting documents. Failure to submit the required information and or documents will delay processing.

You can apply for the following supplemental transactions:

- Create a New Fleet
- Add Vehicle
- Delete Vehicle
- Add/Delete Vehicle
- Increase Vehicle Weight
- Correct vehicle information
- Replace lost, stolen or destroyed credentials (cab card, plate)
- Convert a Louisiana base plate
- Add a vehicle to another existing fleet (fleet to fleet transfer)

To Create a New Fleet

A new fleet is created when a vehicle will be traveling in a group of jurisdictions that are different from an existing fleet.

To create a new fleet, follow the directions to create an original fleet. Use the current account number and the next available fleet number.

The distance submitted on page 3 should include any actual distance accrued by the vehicle(s) in the previous fleet. If jurisdictions are added where distance has not been accrued, estimated distance may be used.

If the application includes estimated distance a Carrier Statement of Proposed Distance Mileage form must be submitted with the application.

To Add a Vehicle

Vehicles added to an existing fleet will have the same states as the other vehicles in the fleet.

Complete pages 1 and 2 of the Louisiana IRP Application. A new distance schedule (page 3) is not required; distance from the original application will be used to calculate fees.

See Supporting Documents Section for a list of documents that may need to be submitted with the application.

Delete Vehicle

To delete vehicle complete pages 1 and 2 (vehicle deletion section) the plate and cab card of the vehicle being deleted must accompany the application.

Keep accurate records of any deletions made after renewal for possible credit if a new vehicle is purchased later in the registration year.

Add/Delete Vehicle

If a vehicle has been previously deleted the credit from the deleted vehicle can be applied to a new vehicle being added if it is within the same account and fleet.

Complete pages 1 and 2 (vehicle being added and the deleted vehicle credit is being transferred from). The unit number of the added vehicle cannot be the same as the deleted vehicle.

Not all IRP jurisdictions allow a credit on Add/Delete Vehicle. Some jurisdictions will charge either full or partial fees for the vehicle being added.

Add/Delete Vehicle can take place between vehicles of different gross weights. The invoice will reflect any fees associated with a difference in moving from a lower gross weight to a higher gross weight.

When an Add/Delete Vehicle is from a higher gross weight to a lower gross weight, no refund or credit will be given for the amount that remains after the fee calculation.

Submit required supporting documents. (See Supporting Documents Section).

To Correct Vehicle Information

Complete pages 1 and 2 (only the vehicle information that is being changed) of the IRP Application.

Submit required supporting documents (see Supporting Documents Section).

Weight Increase/Decrease

The registered weight of a vehicle can be increased or decreased at any time.

The registered weight can be increased in one or more jurisdiction(s). Fees will be calculated between the new and old weights. A current 2290 will be required if the weight of the jurisdiction increased in is over 55,000 even though a registered vehicle's GVW may be less than 54,999.

If there is a decrease in the registered weight no refund will be given.

To Increase the Weight

Complete pages 1, 2 (unit number and VIN only) and page 3 (weight only) of the IRP application.

Submit required supporting documents (See Supporting Documents Section).

Note: If the registered gross weight varies more than ten percent (10%) from one state to another an explanation for the weight difference must be included.

Replacement Credentials

New credentials can be obtained for:

- Replace lost, stolen, or damaged cab cards.
- Replace lost, stolen, or damaged plates.

Enforcement officials look at the original cab card for proof that the vehicle is properly registered. Legible photocopies are valid.

To Replace Credentials

Complete pages 1 and 2 (unit number and VIN only) of the Louisiana IRP Application
Submit copy of the cab card if available.

Louisiana Base Conversion

To convert a Louisiana base plate and receive credit for the Louisiana fees the name on the Louisiana base plate registration must match the registrant's name on the IRP account.

The invoice will reflect credit for the Louisiana fees only. If the base plate conversion credit exceeds the total Louisiana base fees, the credit may be applied up to but not exceeding, the amount of the Louisiana base fees. The remainder of the credit will be refunded by the OMV to the carrier.

To Process a Conversion

Complete pages 1, 2, and 3 of the IRP application (if new account or new fleet).

Submit legible photocopy of the current Louisiana registration.

Submit required Supporting Documents.

NOTE: Upon receipt of the apportioned plate and cab card, the carrier must submit to the IRP Processing Center the original Louisiana registration and the base plates for the converted vehicle to receive credit.

Fleet-to-Fleet Transfer

Fleet to Fleet transfer moves a vehicle in one fleet to another fleet within the same account. The fees are charged like a transfer. Some jurisdictions fees differ when transferring between fleets.

To Process a Fleet-to-Fleet Transfer

Complete pages 1, 2, (unit number and VIN only) and 3 (if creating a new fleet) of the Louisiana IRP application. If you are creating a new fleet and the vehicle(s) were registered in an existing fleet during the previous year's mileage reporting period, you must provide the actual miles in any jurisdiction(s) where mileage was accrued.

Submit a copy of the vehicle's cab card (if available).

Special Types of Operation

Household Goods Carrier

Household goods carriers using equipment leased from service representatives may elect to base such equipment in either that of the service representative, or that of the household goods carrier.

When the base jurisdiction of the service representative is selected, the equipment shall be registered in the service representative's name, and the household goods carrier shall be designated as the lessee. The apportionment of fees shall be according to the combined mileage records of the service representative and those of the household goods carrier. Such records must be kept in the service representative's base jurisdiction.

When the base jurisdiction of the household goods carrier is selected, the equipment shall be registered by the household goods carrier and the service representative shall be designated as lessor. The apportionment of fees shall be apportioned according to the combined mileage records of the household goods carrier and the service representative. Such records must be made available in the household goods carrier base jurisdiction. Vehicles are deemed fully registered for operations under the authority of the service representative as well as the household goods carrier.

Registrants Leased to a Carrier

A vehicle owner who leases onto a carrier can register in one of two ways:

1. The vehicle owner (registrant) may register in their own name. License plates and cab cards will be the property of the registrant. Apportionment fees shall be according to the operational records of the registrant.
2. The carrier may be the registrant with the vehicle owner on the cab card.
3. License plates and cab cards shall be the property of the carrier. Apportionment fees shall be according to the operational records of the carrier.

What is PRISM?

Performance and Registration Information Systems Management (PRISM) is a cooperative Federal-State safety program developed to reduce commercial vehicle accidents. PRISM utilizes the commercial vehicle registration process of the States to improve motor carrier safety in two ways:

- By determining the safety fitness of the motor carrier prior to issuing license plates.
- By motivating the carrier to improve its safety performance either through an improvement process or the application of registration sanctions.

The PRISM program encompasses two major processes, Registration and Enforcement, which are integrated to identify motor carriers and hold them responsible for the safety of their operations. The performance of unsafe carriers is improved through a comprehensive system of identification, education, data gathering, safety monitoring and treatment.

Registration

The International Registration Plan (IRP) provides the framework for the PRISM program by facilitating two vital functions. First, it establishes a system of accountability by ensuring that no vehicle is plated without identifying the responsible carrier for vehicle safety during the registration year. Second, the use of registration sanctions provides a powerful incentive for unsafe carriers to improve their safety performance. The vehicle registration process ensures that all carriers engaged in interstate commerce are identified through a unique USDOT Number during vehicle registration. The safety fitness of each carrier can then be audited prior to issuing vehicle registrations. Those motor carriers that have been prohibited from operating in interstate commerce by the Federal Motor Carrier Safety Administration may be denied registration by the State.

How Does PRISM Affect IRP registration?

As noted earlier, the IRP serves as the framework for the PRISM program and is affected through USDOT registration and MCS-150 updates. The motor carrier responsible for the safety of every vehicle and the registrant must identify their USDOT Number during the registration process. An updated MCS-150 form must be submitted for each registrant and carrier responsible for safety on an IRP account unless the carrier and the registrant have each submitted a form within 12 months prior to the first day of the renewal period, or the motor carrier and the registrant have updated the information directly on the FMCSA web www.fmcsa.dot.gov.

For many IRP accounts, the registrant that maintains the IRP account and the carrier that is responsible for safety are the same entity. Table A outlines USDOT Number and MCS150 update requirements associated with PRISM and IRP registration in these instances. In some cases, the IRP account registrant and the carrier responsible for the safety of individual vehicles on the account may be different. The following examples, in addition to the information in Table B, outline USDOT Number and MCS-150 update requirements associated with PRISM and IRP registration in common instances.

Rental/leasing companies registering in their own name:

Rental/leasing companies that register in their own name must provide the USDOT Numbers and copies of updated MCS-150 forms to the registration office for their company and for all lessees that are responsible for vehicle safety. The USDOT number for the rental/leasing company should be recorded in Section C of the IRP Schedule A and the USDOT Number of the motor carrier responsible for safety should be recorded in the appropriate column of the individual vehicle section.

Owner/operators registering in their own name, but leasing to motor carriers:

Owner/operators who register in their own names must obtain a USDOT Number for themselves. This number is for registration purposes only and does not provide the owner/operator with his/her own operating authority. A copy of the lease agreement must be submitted if the vehicle is being leased on to a carrier.

In addition, the owner/operator must provide the USDOT Number for the company to whom he/she leases. Updated copies of the MCS-150 must be submitted for the owner/operator and all companies responsible for safety (the lessees). The companies must complete the MCS-150 forms. The owner/operator must record his/her USDOT Number in Section C of the IRP Schedule A. The USDOT number of the motor carrier responsible for safety should be entered in the appropriate column at the individual vehicle level of the Schedule A.

Companies using only leased vehicles registered in the name of the lessors:

Companies who use all leased vehicles registered in the name of the lessors (rental/leasing or owner/operators) must provide the lessor with an updated copy of the MCS-150.

Table A IRP account registration and motor carrier responsible for safety of the vehicles are the same entity.

	Registrant Level	Individual Vehicle Level
USDOT Number Requirement	USDOT Number of the Registrant	Same
MCS-150 Requirement	Updated MCS-150 for the IRP registrant required unless one has been submitted within 12 months prior to the first day of the renewal period.	No additional requirement
Action	Record the USDOT Number in Section C of the IRP Schedule A and write "same" in the appropriate column of the individual vehicle section of Schedule A.	

Table B IRP account registrant and motor carrier responsible for safety of all or some of the vehicles at the time of registration are different.

	Registrant Level	Individual Vehicle Level
USDOT Number Requirement	USDOT Number of the Registrant	<p>Two General Situations Apply:</p> <p>USDOT Number of the motor carrier responsible for safety if known and expected to stay the same for at least 30 days.</p> <p>USDOT Number of the Registrant as a default if the motor carrier responsible for safety is unknown or expected to change within 30 days of renewal.</p>
MCS-150 Requirement	Updated MCS-150 for the IRP registrant required unless one has been submitted within 12 months prior to the first day of the renewal period.	An Updated MCS-150 associated with each USDOT Number on the account is required unless one has been submitted within 12 months prior to of the renewal period.
	Record the USDOT Number in Section C of the IRP Schedule A and the USDOT Number of the motor carrier responsible for safety in the appropriate column of the individual vehicle section. Indicate if the lease is for the full registration year in the appropriate column.	

Maximum Allowable Weight in Pounds

The following table lists the maximum operating weight and maximum cab card weight for each jurisdiction. The weight for Canadian provinces will convert to kilograms on the cab card. Exceptions and conditions are show if applicable. Since requirements may change you may contact the jurisdiction for the most current information.

Jurisdiction	Exceptions/Conditions/Permits		
	Max Operating Wt	Max Cab Card Wt	
Alabama	80,000	QUAL	Overweight permit required over 80,000. Cab card changed to QUAL over 80,000
Alberta	139,992	139,992	
Arizona	80,000	80,000	Overweight permit required over 80,000
Arkansas	80,000	80,000	
British Columbia	139,994	139,994	
California	80,000	80,000	
Colorado	85,000	80,000	80,000; 82,000-if vehicle contains an alternative fuel system and operates on alternative fuel or both alternative fuel and conventional fuel

Connecticut	No Max	No Max	Because there is no weight limit the weight on the cab card should reflect actual vehicle weight.
Delaware	80,000	80,000	
District of Columbia	80,000	80,000	
Florida	80,000	80,000	
Georgia	80,000	80,000	
Idaho	129,000	129,000	
Illinois	80,000	80,000	
Indiana	80,000	80,000	Permit is needed. No change to cab card.
Iowa	No Max	No Max	Requires increase in registration to reflect on registration documents.

Kansas	85,500	85,500	Max 80,000 on KS Interstate. Cab card does not change, must register for 85,500 to purchase OW permit.
Kentucky	80,000	80,000	Special permit required for over 80,000.
Louisiana	88,000	88,000	83,400 on Interstate and 88,000 on non-Interstate. These weights must be shown on cab card to qualify for OW permit.
Maine	100,000	100,000	
Manitoba	139,994	139,994	
Maryland	80,000	80,000	
Massachusetts	No Max	No Max	Overweight permit required over 80,000.

Michigan	160,001	160,001	Permit is needed.
Minnesota	80,000	No Max	Overweight permit required over 80,000. Cab card must reflect weight of OW permit as well as have an OW permit.

Mississippi	80,000	80,000	
Missouri	80,000	80,000	Overweight permit required over 80,000.
Montana	138,000	138,000	
Nebraska	94,000	94,000	Permit is needed. Cab card reflects 94,000.
Nevada	129,000	80,000	Cab card must reflect 80,000 to be legal with OW permit.

New Brunswick	137,787	137,787	
Newfoundland	137,787	137,787	
New Hampshire	80,000	80,000	Overweight permit is needed over 80,000.
New Jersey	80,000	80,000	80,000 82,000 pounds for vehicles operated by an engine fueled primarily by natural gas.
New Mexico	86,400	80,000	
New York	80,000	No Max	Overweight permit required over 80,000. Cab card to reflect OW permit.
North Carolina	80,000	80,000	
North Dakota	105,500	105,500	

Nova Scotia	137788	137788	
Ohio	80,000	80,000	
Oklahoma	90,000	90,000	Annual permit required over 80,000.
Ontario	139,992	139,992	
Oregon	105,500	105,500	Special permit required over 80,000.
Pennsylvania	80,000	80,000	
Prince Edward Island	137,788	137,788	

		Combined number of axles for power unit and trailers	
Quebec	Axles		
Rhode Island	80,000	80,000	
Saskatchewan	139,994	139,994	
South Carolina	80,000	80,000	
South Dakota	No Max	No Max	Must meet SD bridge weight laws. Overweight permit required over 80,000 on Interstate.
Tennessee	80,000	80,000	
Texas	80,000	80,000	
Utah	129,000	80,000	
Vermont	80,000, Milk haulers up to 90,000 lbs.	80,000	90,000 allowed if a milk hauler

Virginia	80,000	80,000	
Washington	105,500	105,500	
West Virginia	80,000	80,000	
Wisconsin	80,000	80,000	
Wyoming	117,000	117,000

Glossary

<p>Applicant</p>	<p>“Applicant” means a Person in whose name is filed for registration under the Plan.</p>
<p>Apportionable Fee</p>	<p>“Apportionable Fee” means any periodic recurring fee or tax required for registering Vehicles, such as registration, license, or license fees.</p>
<p>Apportionable Vehicle</p>	<p>“Apportionable Vehicle” means (except as provided below) any Power Unit that is used or intended for use in two or more Member Jurisdictions and that is used for the transportation of persons for hire or designed, used, or maintained primarily for the transportation of property, and:</p> <ol style="list-style-type: none"> 1. has two Axles and a gross Vehicle weight or registered gross Vehicle weight in excess of 26,000 pounds (11,793.401 kilograms), or 2. has three or more Axles, regardless of weight, or 3. is used in combination, when the gross vehicle weight of such combination exceeds 26,000 pounds (11,793.401 kilograms). <p>A Recreational Vehicle, a Vehicle displaying Restricted Plates or a government-owned Vehicle, is not an Apportionable Vehicle; except that a Power Unit, or the Power Unit in a Combination of Vehicles having a gross Vehicle weight of 26,000 pounds (11,793.4401 kilograms), or less, nevertheless may be registered under the Plan at the option of the Registrant</p>

<p>Audit</p>	<p>“Audit” means the examination of a Registrant’s Records, including source documents, to verify the distances reported in the Registrant’s application for apportioned registration and evaluate the accuracy of the Registrant’s distance-accounting system for its Fleet. Such an examination may be of multiple Fleets for multiple years</p>
<p>Auxiliary Axles</p>	<p>An auxiliary undercarriage assembly with a fifth wheel and tow-bar used to convert a semi-trailer to a trailer.</p>
<p>Average Per-Vehicle Distance</p>	<p>When the Application is for a Fleet that did not accrue any actual distance during the Reporting Period, the Base Jurisdiction shall assess registration fees for the Fleet based on the average per-Vehicle distance in each Member Jurisdiction.</p> <p>How to use the APVD Chart:</p> <ul style="list-style-type: none"> • The key to using the APVD Chart is whether there is actual distance in the registration year’s reporting period. • The reporting period is the twelve consecutive months immediately prior to July 1 of the calendar year immediately preceding the beginning of the registration year for which apportioned registration is sought. • If the registration year begins on any date in July, August, or September, the reporting period will be the previous such twelve-month period. • If there is actual distance in a registration year’s reporting period, use it. If not, use the APVD Chart
<p>Axle</p>	<p>“Axle” means an assembly of a Vehicle consisting of two or more wheels whose centers are in one horizontal plane, by means of which a portion of the weight of a Vehicle and its load, if any, is continually transmitted to the roadway.</p> <p>For purposes of registration under the Plan, an “Axle” is any such assembly whether or not it is load-bearing only part of the time.</p>

Base Jurisdiction	<p>“Base Jurisdiction” means the Member Jurisdiction, selected in accordance with Section 305, to which an Applicant applies for apportioned registration under the Plan or the Member Jurisdiction that issues apportioned registration to a Registrant under the Plan.</p>
Base Plate	<p>The license plate issued by the base jurisdiction and shall be the only registration identification plate issued for the vehicle in any member jurisdiction.</p>
Bus	<p>A motor vehicle designed to carry more than 10 passengers and used for the transportation of persons and every motor vehicle, other than a taxicab, designed and used for the transportation of persons for compensation.</p>
Cab Card	<p>“Cab Card” means evidence of registration, other than a Plate, issued for an Apportioned Vehicle registered under the Plan by the Base Jurisdiction and carried in or on the identified vehicle.</p>
Combination of Vehicles	<p>“Combination of Vehicles” means a Power Unit used in combination with one or more Trailers, Semi-Trailers, or Auxiliary Axles.</p>
Combined Gross Weight	<p>The total unladen weight of any combination of vehicles plus the weight of the load carried on that combination of vehicles.</p>

Credential	“Credentials” means the Cab Card and Plate issued in accordance with the Plan.
Dolly	A device consisting of one or two axles with a fifth wheel and trailer tongue used to support the forward end of a semi-trailer, thereby converting a semi-trailer into a full trailer.
Enforcement Date	“Enforcement Date” means the date the Base Jurisdiction requires a Registrant to display the new Registration Year’s Credentials.
Established place of business	“Established Place of Business” means a physical structure located within the Base Jurisdiction that is owned or leased by the Applicant or Registrant and whose street address shall be specified by the Applicant or Registrant. This physical structure shall be open for business and shall be staffed during regular business hours by one or more persons employed by the Applicant or Registrant on a permanent basis (i.e., not an independent contractor) for the purpose of the general management of the Applicant’s or Registrant’s trucking-related business (i.e., not limited to credentialing, distance and fuel reporting, and answering telephone inquiries). The Applicant or Registrant need not have land line telephone service at the physical structure. Records concerning the Fleet shall be maintained at this physical structure (unless such records are to be made available in accordance with the provisions of Section 1035). The Base Jurisdiction may accept information it deems pertinent to verify that an Applicant or Registrant has an Established Place of Business within the Base Jurisdiction. (A post office box does not meet this definition.)
Fleet	One or more apportionable vehicles designated by a registrant for distance reporting under the Plan.

Grace Period	“Grace Period” means a period of time from the expiration of apportioned registration until the Enforcement Date for new Credentials.
Gross Weight	The total unladen weight of any vehicle plus the weight of the load to be carried on the vehicle.
GVW Fees	Gross weight fees paid on trucks, tractors and buses based on the entire gross loaded weight of the vehicle, plus the weight of any unit(s) being towed. This applies to all power vehicles and vehicle combinations.
Household Goods Carrier	“Household Goods Carrier” means a carrier handling (i) personal effects and property used or to be used in a dwelling, or (ii) furniture, fixtures, equipment, and the property of stores, offices, museums, institutions, hospitals, or other establishments, when a part of the stock, equipment, or supply of such stores, offices, museums, institutions, including objects of art, displays, and exhibits, which, because of their unusual nature or value, requires the specialized handling and equipment commonly employed in moving household goods.

Interstate	Vehicle movement between or through two or more jurisdictions.
Intrastate	Vehicle movement from one point within a jurisdiction to another point within the same jurisdiction.
Jurisdiction	“Jurisdiction” means a country or a state, province, territory, possession, or federal district of a country.
Lease	“Lease” means a transaction evidenced by a written document in which a Lessor vests exclusive possession, control, and responsibility for the operation of a Vehicle in Lessee for a specific term.
Lease (short and long term)	Long-Term: Any lease agreement for a period of 30 calendar days or more. Short-Term: Any lease agreement for a period of less than 30 calendar days.

Lessee	“Lessee” means a Person that is authorized to have exclusive possession and control of a Vehicle owned by another under terms of a Lease agreement.
Lessor	“Lessor” means a Person that, under the terms of a Lease agreement, authorizes another Person to Have exclusive possession, control of, and responsibility for the operation of a Vehicle.
Light Vehicles	A motor vehicle commonly referred to as an automobile, van, sport utility vehicle or truck having a manufacturer’s rated capacity of 1 ton or less.
Motor Vehicles	A vehicle propelled by its own power and designed primarily to transport persons or property upon the highways of the state.
Lessee	“Lessee” means a Person that is authorized to have exclusive possession and control of a Vehicle owned by another under terms of a Lease agreement.
Lessor	“Lessor” means a Person that, under the terms of a Lease agreement, authorizes another Person to have exclusive possession, control of, and responsibility for the operation of a Vehicle.
New Accounts	<ul style="list-style-type: none"> • If a carrier opens a new fleet in an established account in July, August, or September and used the APVD because they did not have actual distance in the period, the carrier will not have the actual distance in the reporting period that is applicable to the renewal in the next year. • A carrier who opens a new account with no previous actual distance in July, August, or September will use an AVPD twice. • For the remaining nine months, the APVD will only be used once unless there is no actual distance in the reporting period. An example of this would be opening a new fleet to an established account in June of 2020, but no actual travel occurred until July of 2020.
Operational Records	Means source documents that evidence distance traveled by a Fleet in each Member Jurisdiction, such as fuel reports, trip sheets, and driver logs, including those which may be generated through on-board recording devices and maintained electronically, as required by the APM (Audit Procedures Manual)

Reciprocity	<p>“Reciprocity Agreement” means an agreement, arrangement, or understanding between two or more Jurisdictions under which each of the participating Jurisdictions grants reciprocal rights or privileges to Properly Registered Vehicles that are registered under the laws of other participating Jurisdictions.</p>
Registrant	<p>“Registrant” means a Person in whose name a Properly Registered Vehicle is registered.</p>
Registration year	<p>“Registration Year” means the twelve-month period during which, under the laws of the Base Jurisdiction, the registration issued to a Registrant by the Base Jurisdiction is valid.</p>
Rental fleet	<p>“Rental Fleet” means vehicles the rental owner designates as a rental fleet and which are offered for rent with or without drivers.</p>
Rental Owner	<p>“Rental Owner” means someone who rents Vehicles to others with or without drivers.</p>
Rental Vehicle	<p>“Rental Vehicle” means a Vehicle of a Rental Fleet.</p>
Reporting Period	<p>“Reporting Period” means, except as provided below, the period of twelve consecutive months immediately prior to July 1 of the calendar year immediately preceding the beginning of the Registration Year for which apportioned registration is sought. If the Registration Year begins on any date in July, August, or September, the Reporting Period shall be the previous such twelve-month period.</p>
Residence	<p>“Residence” means the status of an Applicant or a Registrant as a resident of a Member Jurisdiction.</p>

Restricted plate	<p>“Restricted Plate” means a plate that has a time, geographic area, distance, or commodity restriction or a mass transit or other special plate issued for a bus leased or owned by a municipal government, a state or provincial transportation authority, or a private party, and operated as part of an urban mass transit system, as defined by the Jurisdiction that issues the plate.</p>
Special Mobile Equipment	<p>A vehicle not designed for the transportation of persons or property on the highways but incidentally operated or moved over the highways, including road construction or maintenance machinery, ditchdigging apparatus, and well-boring apparatus.</p> <p>The fact that equipment is permanently attached to a vehicle does not make the vehicle special mobile equipment.</p>
Total Distance	<p>“Total Distance” means all distance operated by a Fleet of Apportioned Vehicles. Total Distance includes the full distance traveled in all Vehicle movements, both interjurisdictional and intrajurisdictional, and including loaded, empty, deadhead, and bobtail distance. Distance traveled by a Vehicle while under a trip Lease shall be considered to have been traveled by the Lessor’s Fleet</p>
Tractor (TR)	<p>“Tractor” means a motor Vehicle designed and used primarily for drawing other Vehicles, but not so constructed as to carry a load other than part of the weight of the Vehicle and load so drawn.</p>
Trailers (ST or FT)	<p>Semi-Trailer (ST): “Semi-Trailer” means a Vehicle without motor power that is designed to be drawn by a Motor Vehicle and is constructed so that a part of its weight rests upon or is carried by a towing Vehicle.</p> <p>Full Trailer (FT): “Full Trailer” means a vehicle without motor power that is designed for carrying property and for being drawn by a Motor Vehicle and is constructed so that no part of its weights rests upon the towing vehicle</p>
Truck (TK)	<p>“Truck” means a Power Unit designed, used, or maintained primarily for the transportation of property.</p>

Truck Tractor (TT)	<p>“Tractor” means a motor Vehicle designed and used primarily for drawing other Vehicles, but not so constructed as to carry a load other than part of the weight of the Vehicle and load so drawn.</p>
Unladen weight	<p>The actual weight of the vehicle including the cab, body, and all accessories with which the vehicle is equipped for normal use on the highway excluding the weight of any load.</p>
Vehicle	<p>“Vehicle” means a device used to transport persons or property on a highway but does not include devices moved by human power or used exclusively upon rails or tracks.</p>
Vehicle Identification Number (VIN)	<ul style="list-style-type: none"> • Prior to 1981, VINs varied in length from 11 to 17 characters. • A VIN is composed of 17 characters (Digits and capital letters) that act as a unique identifier for the vehicle
